Project Overview

TENNESSEE VALLEY TRAIL

Coyote Creek Bridge Replacement

Project Objectives:

- Improve traffic circulation
- Improve Tennessee Valley Trail crossing beneath bridge on south side of creek for pedestrians, bicyclists, and equestrians
- Improve foot path on north side of creek under bridge

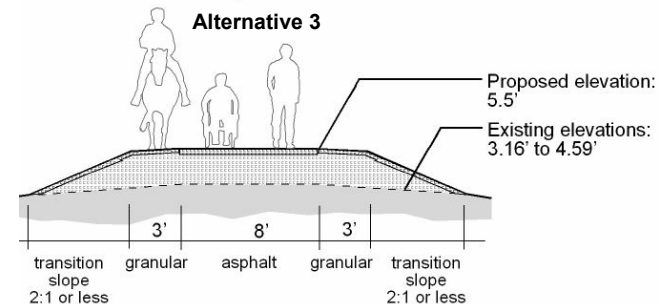

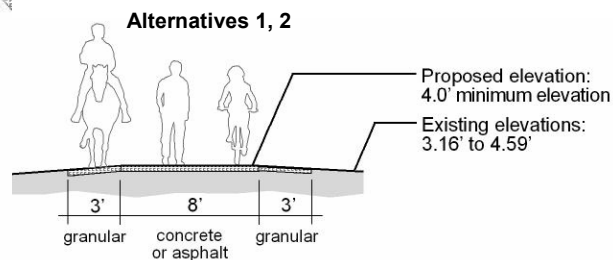

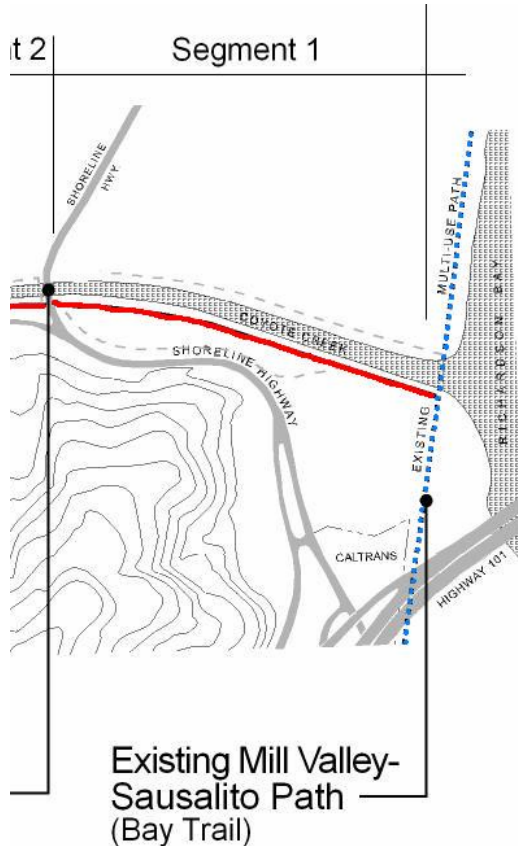

Tennessee Valley Trail Upgrade

Project Objectives:

- Provide safe opportunities for pedestrians, bicyclists, and equestrians
- Provide accessibility within the context of environmental constraints
- Serve recreation and community transportation needs
- Minimize impacts to natural resources
- Provide non-motorized alternatives to help reduce vehicles on Tennessee Valley Road
- Provide a continuous trail from the existing Mill Valley-Sausalito bike path to the Miwok Stables (a length of approximately 2 miles)
